

GM Certifications GMW14445 Polyfuzer™ Polymer Fusion Label Technology

Performance Data

The following performance data is representative of polymer fusion label performance as certified by the General Motors Company.

All tests referenced within GMW14445 are shown below.

Adhesion:

Test Name	Test Specs	Surface	Result
1-Resistance To Fluids	Sunscreen/Insect Repellent	HDPE Test Plaque	<i>OK Appearance, No Change</i>

Test Criteria:

Test solution placed on sample, followed by 1 hour continuous oven exposure at 80° Celsius. Sample then washed and cooled to room temperature and examined for appearance.
